Program Note

I wrote **ETERNAL STARS** in memory of the three flight crews who gave their lives in America's pursuit of the exploration of outer space. From the beginning, I wanted this piece to be a celebration of their adventurous spirit and enthusiasm. To that end, **ETERNAL STARS** is built around ascending and "reaching" motives and melodies as well as energetic, driving rhythms. Although the piece is divided into three sections with meters corresponding to the number of members of the three flight crews (7, 3, and 7), it is not my intent that any section represents a particular crew. Rather, the three sections taken as a whole symbolize all the astronauts.

There are, in fact, a number of symbolic elements in **ETERNAL STARS**. These include—in addition to the melodic, sectional and metrical elements mentioned above—references to Gustav Holst's *The Planets*, the "rocket" motive made popular by the "Mannheim School" composers of the early Classical Period, and the hymn *Eternal Father Strong to Save* by John Dykes. Although this hymn is often referred to as *The Navy Hymn*, it has also become the unofficial Astronaut Hymn due to its references to perils during a long voyage. In recent years, it has even been given additional verses specifically related to the exploration of outer space.

ETERNAL STARS was composed on a commission from the Oklahoma Music Teachers Association (OMTA) as part of their "Commissioned Composer" program. It received its premiere on June 4, 2004 at the OMTA annual conference in Tulsa, Oklahoma by the Oklahoma Brass Quintet.
